

Camilo Andrés García Almeida

Software Development and Artificial Intelligence Technician

PROFILE

Software Development and Artificial Intelligence Technician, trained for one intensive year at CampusLands. I build REST APIs with Java and Spring Boot secured with JWT, automations with n8n and AI assistants in Python and TypeScript. I have worked in teams using agile methods, coordinated a team's integration at an AI hackathon and deliver projects with automated tests and documentation. In December 2026 I start my professional internship at Globant.

EDUCATION

Software Development and Artificial Intelligence Technician — Dec 2025 – Nov 2026
CampusLands · Floridablanca, Colombia

High School Diploma — Nov 2025
Fundación Colegio UIS

PROJECTS AND EXPERIENCE

Professional internship · Globant — From Dec 2026
Developer intern
Professional internship as a developer at a global technology company.

Tool Rental Platform — 2026
Java 21 · Spring Boot · Spring Security · JWT · MySQL · Docker
REST API with admin, provider and customer roles: date bookings, payments with VAT, returns with late fees and damage reports.
113 automated tests, Swagger and Postman documentation, and one-command or Docker startup.

VitalRoute — Real-time medical triage and dispatch — 2026
TypeScript · Node.js · Express · Socket.IO · React · MySQL
Pair project. I built the server, real-time communication channels, the map dashboard and an AI agent with a dispatch tool.

DeliveryBot — Telegram ordering bot — 2026
n8n · JavaScript · Telegram Bot API · Google Sheets
39-step automation that takes orders, calculates totals, notifies kitchen and customer, and stores everything in Google Sheets.

MindConnect API — Mental health platform — 2026
Java 21 · Spring Boot · PostgreSQL · Flyway · JWT
Hexagonal architecture with 52 tables, versioned migrations and 600+ automated tests.

ACHIEVEMENTS AND CERTIFICATES

Visual Agents Hackathon — Certificate of participation — Jun 2026
Campuslands · Voxel51 · UPB · Bucaramanga Chamber of Commerce
Integration, module contracts and presentation role in the GUARDIAN project (computer vision and Gemini).

TECHNICAL SKILLS

- Java · Spring Boot
- Python · LangChain
- TypeScript · Node.js
- JavaScript · React
- SQL · MySQL · PostgreSQL
- n8n · automation
- Docker · Git · GitHub
- JUnit · pytest · Postman

SOFT SKILLS

- Leadership
- Communication
- Teamwork
- Fast learner
- Problem solving
- Ownership
